Report of Director and School Improvement Council

The Academy for Career Excellence (ACE) provides career and technology education to public high school students who are enrolled in any Beaufort or Jasper County high school. The Academy for Career Excellence strives to prepare students for the future by providing high-level technical training and rigorous academic instruction. The faculty embraces an instructional model that infuses reading, writing, math, and essential skills throughout the curriculum. To ensure that our students are able to perform the task(s) associated with their respective program, a capstone project is required of all students prior to completing their program.

Students are encouraged to participate in leadership activities with national student organizations such as National Technical Honor Society (NTHS), Future Farmers of America (FFA), Health Occupations Students Associations (HOSA), and Skills USA. ACE has over 90 partners from business, industry and the military. During the 2012-2013 school year, our students participated in state and national competitions. In fact, several of our students won 1st place at the state Skills competition. Our students were also involved in numerous service learning projects, as they worked very hard to make a difference in the Lowcountry.

In an effort to continue to provide additional opportunities for our students, ACE will offer a STEM program for students during the 2013-2014 school year. The addition of a STEM program, coupled with various programmatic upgrades, is sure to have a significant impact on the students who attend ACE for many years to come.

ESEA/Federal Accountability Rating System

In July 2013, the South Carolina Department of Education was granted a waiver from several accountability requirements of the federal Elementary and Secondary Education Act (ESEA). This waiver allowed SC to replace the former pass/fail system with one that utilizes more of the statewide assessments already in place and combine these subject area results with graduation rate (in high schools) to determine if each school met the target or made progress toward the target. This analysis results in a letter grade for the school rather than the pass/fail system of previous years. For a detailed review of the matrix for each school and districts that determined the letter grade, please use the following link: <http://ed.sc.gov/data/eSEA/> or request this information from your child's district or school.

Overall Weighted Points Total	N/A
Overall Grade Conversion	N/A

Index Score	Grade	Description
90-100	A	Performance substantially exceeds the state's expectations.
80-89.9	B	Performance exceeds the state's expectations.
70-79.9	C	Performance meets the state's expectations.
60-69.9	D	Performance does not meet the state's expectations.
Less than 60	F	Performance is substantially below the state's expectations
